Competent Authority	Financial Market Authority (FMA), Austria	
Date and time of production	27 June 2024 16:15 Vienna local time	

## 1. What is this product?

Туре

This product is issued under Austrian law and entitles the respective holder to receive any amount due from us as the Issuer (bearer form).

#### Term

Objectives

(Terms that appear in **bold** in this section are described in more detail in the table(s) below.)

The product has a fixed term and will be due on 27 July 2026.

The product is designed to provide a return in the form of (1) a fixed coupon payment and (2) either a cash payment or the delivery of the **underlying** on the **maturity date**. What you may receive will depend on the performance of the **underlying**. <u>Coupon</u>: On the **maturity date** you will receive a coupon payment calculated by multiplying the **unit reference amount** by the coupon rate of 9.64431% per annum and then applying the **day count fraction** to adjust this amount to reflect the length of the **coupon period**. The coupon payment is not linked to the performance of the **underlying**.

Termination on the maturity date: On the maturity date you will receive:

- 1. if the final reference price is above 70.00% of the initial reference price, a cash payment equal to PLN 1,000; or
- 2. if the **final reference price** is at or below 70.00% of the **initial reference price**, physical delivery of the **underlying**. The number of shares of the **underlying** that will be delivered will be calculated as (i) PLN 1,000 divided by (ii) the **initial reference price**. If this calculation would require delivery of part of a share of the **underlying**, instead of receiving that part, you will be paid the cash equivalent of the value of that part (the residual cash). The value of such shares plus the residual cash will generally be less than the amount you invested.

Under the product terms, certain dates specified below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the issuer may terminate the product early. These events are specified in the product terms and principally relate to the **underlying**, the product and the issuer. The return (if any) you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

When purchasing this product during its lifetime, the purchase price may include proportionate accrued coupon.

You do not have any entitlement to a dividend from the **underlying** and you have no right to any further entitlement resulting from the **underlying** (e.g., voting rights).

#### Intended retail client

The product is intended for private clients, professional clients and qualified counterparties who pursue the objective of general asset accumulation/asset optimization and have a short-term investment horizon. This product is for customers with extended knowledge and/or experience with financial products. The investor can bear losses up to the entire amount of the invested capital and is willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.

**Risk indicator** 

**Performance s** 

	1	2   2	<u> </u>		
		Z    J	4    3		
	<b>~</b>				
	Lower risk			Higher	
	The risk indicator assumes you keep the product until 27 July 2026. The actual risk can vary significantly if you cash in at an early stage and you may get back less.				
		ndicator is a guide to the level of risk of th lose money because of movements in the		,	
		this product as 6 out of 7, which is the sec gh level, and poor market conditions are v			
	To the extent the currency of the country in which you purchase this product or your account currency differs from the product currency, please be aware of currency risk. You will receive payments in a different currency so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in th indicator shown above.				
	Inflation erodes the purchasing value of cash over time and this may result in the decline in real terms of any capital reimbursed or interest you may be paid under the investment.				
	In the event of physical delivery of the <b>underlying</b> on termination of the product, you may incur a loss if the value of the <b>underlying</b> decreases between termination of the product and the date on which the <b>underlying</b> is credited to your securities account.				
	This product does not include any protection from future market performance so you could lose some or all of your investm				
	If we are not able to pay you what is owed, you could lose your entire investment.				
	For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

Ine favourable, moderate, unfavourable and stress scenarios represent possible outcomes that have been calculated based on simulations using the reference asset's past performance over a period of up to 5 years. The stress scenario shows what you might get back in extreme market circumstances.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

# 3. What happens if Raiffeisen Bank International AG is unable to pay out?

The product is not covered by any statutory or other deposit protection scheme. You may suffer a total loss of your investment if Raiffeisen Bank International AG is unable to make the payments due under the product. This may occur if Raiffeisen Bank International AG becomes insolvent or is

affected by resolution measures taken by the competent authority before an insolvency. These measures (referred to as "bail-in") include the partial or full write-down of the notional amount or the conversion of the product into shares of Raiffeisen Bank International AG.

## 4. What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

**Costs over time** 

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

• In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

• PLN 100,000 is invested

	lf you exit after 1 year	lf you exit after 2 years	
Total costs	PLN 4,000	PLN 4,000	
Annual cost impact*	4.14%	1.91% each year	

\*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -4.52% before costs and -6.43% after costs. We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

#### **Composition of costs**

	One-off costs upon entry or exit	If you exit after 1 year
Entry costs	4.00% of the amount you pay when entering this investment. These costs are already included in the price you pay.	PLN 4,000
Exit costs	We do not charge an exit fee for this product, but the person selling you the product may do so.	PLN 0

# 5. How long should I hold it and can I take money out early?

## Recommended holding period: 2 years

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 27 July 2026 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (if the product is exchange traded) or (2) off-exchange, where an offer for such product exists. Save as otherwise disclosed in exit costs (see section "4. What are the costs?" above), no fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

Exchange listing	Not applicable	Price quotation	Units
Smallest tradable unit	1 unit		

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

## 6. How can I complain?

Complaints about the product or the conduct of the product manufacturer should be addressed in writing to Raiffeisen Bank International AG, Beschwerdestelle (716B) AG, Am Stadtpark 9, 1030 Wien or may be sent by email to complaints@raiffeisencertificates.com. Further information regarding complaints can be found on https://www.raiffeisenzertifikate.at/en/contact/complaints/. Complaints about any person advising on or selling the product should be addressed to the respective bank or product distributor.

# 7. Other relevant information

The final terms setting out the terms and conditions of the product and the prospectus including any supplements thereto on the basis of which the product is issued have to be published on the website of the issuer www.raiffeisencertificates.com. In order to obtain additional detailed information on the structure of the product and the risks associated with an investment in the product you should carefully read these documents.

The information contained in this Key Information Document does not constitute a recommendation to buy or sell the product and is no substitute for an individual consultation with your bank or your advisor.

This Key Information Document is for submission in Poland.
